

# Raised Floors

Are you building on sloping, floor prone sites or relocatable building? Ultraspan supplies a superior flooring system to outperform others to reduce and optimise stumps and bearers. Ultraspan supplies large and small projects to save many. Some of the benefits using Ultraspan™ floor system include:

- Fully engineering incl. F15 certification
- Superior corrosion coating protection
- Industry leading technical support
- Industry leading customer support
- Over 30yrs building and manufacturing experience
- "Idiot proof" assembly process
- Less components to install than others
- Greater subtrade options within our floors
- Reducing waste will save money
- Minimise Structural Steel
